### 1.1 Amiga E Support Archives

Filename	Comands	Size	Description
amigae30a.lha	VX	700K	Amiga E 3.0a by Wouter van Oortmerssen - An object oriented / procedural / unpure functional higher programming language, mainly influenced by languages such as C++, Ada, Lisp etc. It is a general-purpose programming language, and the Amiga implementation is specifically targeted at programming system applications.
Mac2E_v31.lha	VX	96K	Mac2E 3.1 by Lionel Vintenat - A preprocessor for Amiga E which only supports macro replacing. As an example of using, joined to this archive is all that you need (some include files and an executable file) to use MUI v2.1 as you would do in C language.
