

# **The Gate**

## Remote Bulletin Board System

-----

The Gate RBBS -- based in Laramie, Wyoming, USA -- now offers a very extensive library of Windows 3.0 drivers, shareware, and freeware. Many of our files are not available on Internet sites, even such excellent sites as [cica.cica.indiana.edu](http://cica.cica.indiana.edu) and [nic.funet.fi](http://nic.funet.fi). Access and registration to our BBS is free! Here's how:

One way: Call (307) 721-4722 (operating continuously, up to 2400 baud)  
Call (307) 742-8830 (operating continuously, USR 9600 HST D/S)

Another way: Connect to [Modem.Uwyo.Edu](http://Modem.Uwyo.Edu) and type: ATDT9,7214722 or  
ATDT9,7428830

\*\* We are now running two lines, with 150M storage for your needs \*\*  
\*\* We can be addressed via the RBBS-Net mail at 8:919/201 \*\*

Many of our files come not only from FTP sites but also from such services as CompuServe and the RBBS-Net file exchanges. We also offer extensive DOS-based communications and utilities tools, as well as a generous selection of adult graphics. Give us a try today!

The Gate RBBS -- the perfect companion to Internet and Windows 3.0!

Cordially,

The Members of The Gate
