

Notes

Currently, I don't know of any bugs. If you should find one, please report it to me via Internet e-mail to franke1@llnl.gov or via "hard" mail to:

Norman Franke
1885 Paseo Laguna Seco
Livermore, CA 94550

Also, please feel free to write if you have any suggestions, questions, comments, or inquiries concerning my plans for future versions. If you are aware of any format you'd like to see SoundApp support, please write. Any information regarding the new format and sample files would be very helpful.

Please spread the word about SoundApp and upload it to any on-line services and bulletin board systems that do not already have it.

Potential Future Additions

- Support for other sound formats and various compression schemes
- More AppleScript support (in 2.0)
- Support for MPEG audio (maybe in 2.0)
- PowerPC-native version (in 2.0)
