ddress Book is an easy-to-use, fast and powerful way to manage and control lists of names, addresses, and phone numbers. Both Application and Desk Accessory (DA) versions work on Macs from the Plus to the latest PowerMacs.

• preset fields for easy set-up and data entering
• memory-resident list for fast finding and sorting
• multiple sort capabilities
• import utilities allow importing from other databases, word processing programs, and Personal Information Managers
• exports to mail merge, databases, word processors, and spreadsheets, and palmtop computers, including Newton, Psion 3a, Sharp Wizard, and Hp95LX
• prints envelopes, labels, business cards, postcards, Rolodex, standard and custom address books, and lists, in color if your printer supports it
• prints postal bar codes
• phone dialing through modems, the Mac speaker, Hyperdialer™, and Desktop Dialer™
• log file for logging calls, taking notes
• call timer
• macros
• on-line help
• multiple language capability
• regular updates on Compuserve, America Online, our web page at http://members.aol.com/PegasusSof/, and direct (see Ordering and Order Form at the end of this document)
