

How Do I Enter The CD's Cover Art Into My Collection?

To enter in, or change the existing CD Cover being displayed:

1. Click on the box where the CD artwork will reside, or click on the words, "CD Cover." By doing so a menu box will open asking you where to locate your CD artwork.
2. On your hard drive, locate the CD Cover you wish to be displayed. Click "Open."

Note: The artwork MUST be in PICT or TIFF format, and should be square.
(Ideally 150x150 pixels).

How Do I Play/Record a Sound Sample?

By clicking on the "Sound Sample" icon, your Mac's built-in microphone, or external microphone can be used for recording your sample.

After your sound sample has been entered, a speaker icon will be created in the lower right hand corner of the Main Menu.

How Do I Change An Existing Sound Sample?

1. Copy the sound you wish to add onto the Clipboard. In other words, in your Sound Editing program, you will need to choose new sound you want, and choose "Copy." This will place the sound on your Mac's Clipboard.
2. Highlight the speaker icon located in the lower left hand corner of the Main Menu, by clicking it just once.
3. Choose "Paste" from the "Edit" menu, and your new sound will now be entered for that CD listing. To check the sound, simply click the Sound Sample icon to play the sound.

How Do I View A Song's Lyrics?

The "generic" way would be to click on the "Lyrics" icon above. The quicker and even easier way is to click on the number listed to the left of the track's title. By doing so, you will be taken directly to the Lyrics Menu, and the song lyric you requested will be displayed.

Within the Lyrics Menu, you can also simply click on the track number, to display a song's lyrics.
