

The 50 Fonts Pack, Volume 2

Brand new creations, you will definitely not find elsewhere. Every one of these types has been patiently crafted to perfection, to make sure it fits perfectly into your documents. Each of them could cost hundreds from other software houses. Some of these fonts will make you the most original computerist around, enhance your presentations or reports, and make sure your work is properly rewarded. When others will dully use old desktop publishing, flash them real originality.
