

Registering DragStrip™

You can either use the Register DragStrip application that comes in the installer, or you can visit the DragStrip registration web site: <http://order.kagi.com/?3R8>

DragStrip costs \$20 per user. A site license costs \$500 and covers all locations for your organization within a 100 miles or 160 kilometer radius of your site. A World-Wide license costs \$2000 and covers all locations for your organization on in the world.

Paying for DragStrip is fairly simple. Open the Register program that accompanies the application. Enter your name, your email address, and the number of single user licenses you desire for each program you wish to purchase (or Site or Word-Wide licenses). Save or Copy or Print the data from the Register program and send the data and payment to Kagi. Kagi handles our payment processing.

If paying with Credit Card or First Virtual, you can email or fax the data to Kagi. Their email address is sales@kagi.com and their fax number is +1 510 652-6589. You can either Copy the data from Register and paste into the body of an email message or you can Save the data to a file and you can attach that file to an email message. There is no need to compress the data file, it's already pretty small. If you have a fax modem, just Print the data to the Kagi fax number.

Payments sent via email are processed within 3 to 4 days. You will receive an email acknowledgement when it is processed. Payments sent via fax take up to 10 days and if you provide a correct internet email address you will receive an email acknowledgement.

If you are paying with Cash or USD Check you should print the data using the Register application and send it to the address shown on the form, which is:
Kagi

1442-A Walnut Street #392-3R8

Berkeley, California 94709-1405

USA

You can pay with a wide variety of cash from different countries but at present if you pay via check, it must be a check drawn in US Dollars. Kagi cannot accept checks in other currencies, the conversion rate for non-USD checks is around \$15US per check and that is just not practical.

If you have a purchasing department, you can enter all the data into the Register program and then select Invoice as your payment method. Print three copies of the form and send it to your accounts payable people. You might want to highlight the line that mentions that they must include a copy of the form with their payment. Kagi can not invoice your company, you need to act on our behalf and generate the invoice and handle all the paperwork on your end. Please do not fax or email payment forms that indicate Cash, Check or Invoice as the payment method. As far as we know, there is still no technology to transfer physical objects via fax or email and without the payment, the form cannot be processed. Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed.

Registration Codes

DragStrip has a protection scheme and when you pay, we tell you how to indicate to DragStrip that you have paid the registration fee. If you do not have an email address, please enter your complete postal address and please remember, we do not know what country you live in so please enter that into the postal address also. If you do not have an email address you should consider selecting the Postcard Receipt so that Kagi can inform you of your registration code. Kagi transmits the registration codes via email and paid postcard receipt only.

DragStrip Requirements

DragStrip requires Macintosh System 7.1 or later, and a 68020 processor or later.

Not in the documentation...

While DragStrip supports Control Strip modules, do not use DragStrip's Control Strip features and run Control Strip at the same time. Weird things may happen.

DragStrip Technical Support

1. Read the documentation. We have spent a lot of time on the documentation in an effort to anticipate every possible question and address every subject. DragStrip is easy to use, but you should read it. They will teach you everything you need to know about DragStrip. DragStrip's documentation is available online at:
<http://www.poppybank.com/DragStrip/Documentation.html>

2. If you cannot find the solution to your problem in the documentation you can get technical support from the following sources.

*Phone Tech Support: Sorry, we can't provide technical support by phone.

*Internet: You may send your questions or comments via e-mail to "support@poppybank.com".

Other Software

Included with DragStrip is Bail™. Bail is a control panel that allows you to cancel the launch of any applications you may have accidentally launched. To activate Bail, drag it into your Control Panels folder and restart. Now when you launch an application, your cursor will flash an application icon briefly. If you click or press Command-period during this time, the application's launch will be immediately halted and you will return to Finder. You can change the amount of time that Bail gives you to cancel the launch and certain applications that Bail will always launch immediately without this delay. For a list of other Poppybank Software shareware, check out our web site at <http://www.poppybank.com>
