

If your printer does not appear in the list of printers

Only the most common printers are listed in the Destination Options dialog box.

>>> Suggestions

> See the manual for your printer to determine if your printer prints at 300 dots per inch (dpi) or 600 dpi. Select the correct option (Other 300 dpi printers or Other 600 dpi printers) in the Destination Options dialog box. See [How to Specify Your Type of Printer or Picture](#).
