

Trade Up to StuffIt Deluxe!

Why trade up to Deluxe? We're glad you asked :-)

The StuffIt Deluxe package includes many more benefits and features than StuffIt Lite to make compression much easier. StuffIt Deluxe is a commercial product which you can purchase through a dealer or mail order firm. If you are a registered StuffIt Lite user, we have an inexpensive trade up policy for you to get StuffIt Deluxe; just call Aladdin Systems to get the details: (408) 761-6200.

StuffIt Deluxe includes:

- StuffIt Deluxe application
Includes more translators than StuffIt Lite. E-mail StuffIt archives right from the Deluxe application using CE Software's QuickMail, Microsoft Mail, or Apple's PowerTalk.
- StuffIt SpaceSaver to give you more free disk space
SpaceSaver compresses files transparently. Your SpaceSaver-compressed files look and act completely normal; all your icons remain the same. SpaceSaver automatically expands the files when opened, and recompresses them when closed.
- Magic Menu
For easy compression from a Finder menu.
- StuffIt Expander
For drag and drop expansion of StuffIt archives and many other compression formats, including .zip, .arc, .gz, .Z, .UU, and more.
- DropStuff
For drag and drop Stuffing, encrypting, or BinHexing — right on the desktop.
- Other features that make compression effortless
Stuff and UnStuff files by adding or removing “.sit” from a file or folder name in the Finder!

- Plus much more!

View the contents of compressed files even when they are in an archive. A comprehensive manual that explains every feature in detail is included.
