## 1.6 getting started

### GETTING STARTED

-----

This program is very easy to understand and use...

Try it out and ask me if there's something that you don't understand...

## 1.7 buttons

### BUTTONS

-----

- Instant play with F1-F10 and the numeric 1-4 keys.  
When pressing a key, the sample data is already loaded into memory.  
The only time delay it takes to play a sample is for the HD to seek to the right position in the file.
- Pressing RETURN will play the next sample in that preset.
- Pressing SPACE will play the last sample played.
- While playing, pressing ESC stops playing the sample.
