Oct. 1998
BoilerPlate

Description:

It is the first K2 icon set on Epoch Icons, and maybe on the internet. This set launches an upcoming tidal wave of K2 scheme based icons for the macintosh coming soon to Epoch Icons. The BoilerPlate K2 scheme, designed by Timechanic Industries (<http://www.timechanic.com>) has been portrayed in this icon set with direct permission by the author, and select icons in this set are featured in the recently updated BoilerPlate K2 scheme.

We hope you enjoy this set in its futuristic form, and check our website for previews of upcoming K2 scheme based icons.

For **more** icons visit Epoch Icons on the web!

<http://www.epochicons.com>

Legality:

The icons included in this set are copyright © 1998 Epoch Graphics and were created for personal use only. This set may be distributed as freeware as long as this Read-Me file remains intact. These icons cannot be used in any commercial application or internet presence without express permission from the author(s), and are intended for the free and non-profit use of individuals only.

For distribution information, please contact me or go to Epoch Icons on the web:
contact: wnosaj@flash.net

internet: <http://www.epochicons.com>

How To Make Use of the Icons:

1. You need to be running a Macintosh running system 7.0 or higher.
2. Create a new blank folder (or select the file of the icon you wish to customize)
3. Select an icon from the icon set you want to use
4. From the file menu, select "Get Info"
5. Click on the upper left corner of the dialog box to select that icon.
6. From the "Edit" menu select the copy command.
7. Repeat steps 4&5 on the blank folder you originally created.
8. From the "Edit" menu select the paste command.
9. That's it! (now e-mail us and tell us what you think)
