Red Box Folders Icon Collection

Introduction:

So where did Red Box come from? One of those operating system building blocks? Or another type of "Black Box" for new airplanes in the future? The answer is none of the above.

This set of icons was mutated from one of the "looks and feels" we provided for our new client, Apple Computers, Inc. - AppleWorks (formly known as Claris Works).

The style of copland with a simple "Red Box" on the side. That's the idea behind this set.
