The Tilery owes much to a great many immensely helpful people. My thanks to:

• Ken Abrams, for wacky ideas over lunch;
• Mark H. Anbinder, for more good work than I could list here;
• Michael Hecht, for Drag and Drop code;
• Jamie R. McCarthy, for invaluable code snippets and much excellent user interface advice;
• Jon Pugh, for lighting the dark ways of AppleScripting;
• Pete Resnick, for more Drag and Drop code and for insisting that I do things right;
• Keith Rollin, for Specified Icon Management help;
• my intrepid Test Teams;
• and The Blue Meanies and their friends, for System 7 and Mac OS 8.

Bug reports and feature requests may be sent to me at the address below. Please check The Tilery's Read-Me file to see whether your bug is already known before sending in your report. Thank you!
