Chapter 1

Energy

1.1   main

```
        dA welcome!
```

my sister hate phisics so ;) she need a litte support
from brother....

```
        [Introduction]

        [   Future   ]

        [    IHgui   ]

        [   Author   ]
        No
        woman
         - no cry
```

1.2   Woman

```
    I will pray for ya soul....that all i can do....
```

1.3   Author

```
Right now......?
Ehhh...
```

```
      oki.. My name is Emil, so everybody calls me 'OPi' ;^)
   im young, not-so-bright male, anarchist, bleeee dunno what to
        say..... im programing....try to code something....
   like watch/do ascii art.... music? acid/goa/trance/gabba and
              of koz oldskool rock (60-70)....
```

```
              irc? yes... on #amisia and #amigascne
                   email: opi@amigascne.org
                          what else?
                      AmigaScene rulez? :)
```

1.4 I hate GUI!

```
I want to found a "I hate gui!" organization
but since all my m8 using mouse (haha! mouse? what is that?:)
and my sister too, i need to make a gui for some of my
programs, they may look a litte horrible but since i don't
care to mutch about gui... ;)
```

1.5 Future

```
                Want to run this auto options ;)
Right now its only disablin' a count
button, in near future it will be calculatin' on-da-fly
all inputed data....

and ofkoz
                mui-gui
                 ;)
```

1.6 Introduction

```
Whmmm, like to know about potincial energy?
run this, and try to understand ;))))

ps.Drareg&Skid/Ozone.... im back! keep on O'zonin' =)
```
