Author Information

I am a recent college graduate with a B.S. in electrical engineering.   I am unemployed at this time and am hastingly searching for a job.   Programming is my hobby and this application as well as Music Plus for Windows have been the products of the times when I'm exhausted from job-searching.

Any bugs or comments (or job offers) can be forwarded to:

Getting Started

The steps you should go through in creating your first file is to:

(1)   creat a <u>New File</u>.

 (2)   then start <u>adding credit card</u> information for your first credit card
(you should have all of your credit cards and monthly statements (preferably the latest ones) on hand for each card you plan to enter).

(3)   after you have entered the account and bank information, the Monthly Statement window will come up.   At this point   you are ready to <u>enter monthly data</u> from your monthly statements.

(4)   Repeat 2 and 3 until all of your credit cards are in the database.

(5)   Save the file.

Menu Items

File:

New...   Create a new   file.

Edit...Monthly Statements Go into the 'Monthly Statement' window.

Help:

Contents   Open the Help file.
Search...   Search help for a particular subject.
About   Author information.
Register   How to register CCPlus.

Used to creat a new file.   Same as   'File...New'.

Credit Card Plus 1.2 for Windows

Credit Card Plus 1.2 for Windows is a very simple to use credit card database.   You can keep track of

(1) Account information (account numbers, interest rates, credit limits, etc.) ,

(2) Bank information (names, addresses, phone numbers, etc.), and

(3) Monthly statement information (payments, purchase, advances, etc.).

 This application provides an easy way of displaying all your information with just a click of the mouse.   You can display your information in detail (items purchased, places items were purchased, amount for every purchase, place of advances, etc.), or   you can display it on a monthly or yearly   basis for each individual credit card (total payments, purchases, advances, and interest paid).

From 'File' menu or clicking on the icon   ==>

This is where you can find the interest rate, bank name, payment due date, etc.   Some of them even include items purchased, dates, and places of purchase.

Choose "Add" from the 'Credit Card' menu.

Displaying Your Information

You can display:

(1)

Monthly statements for all your credit cards by selecting 'Monthly Statements' from the Display drop-down list.

(2)

Yearly information for payments, purchases, advances, and interest paid by selecting 'Yearly Information' from the Display drop-down list and then choosing one of the available credit cards.

(3)

Detailed information on payments, purchases, and advances by selecting the appropiate item from the Display drop-down list and the desired credit card.

Entering Monthly Data

Choose the credit card you want to enter data into.

Choose month and year.

Make sure the 'Add' option is selected.

Start entering payments, purchases, and advances by selecting the appropiate icons.

Payments

Advances

Purchases

To edit the Interest Paid or the Balance, click on the 'Interest/Balance' button.

Editing/Deleting Information

To edit or delete payments, purchases, and/or advances:

- choose 'Edit...Monthly Statement' from the 'Credit Card' menu in the main window Or

-   double click anywhere on the row/column grid Or

- click on the dollar sign icon ===>

Editing:

choose the 'Edit' options   and double-click on the appropiate item you want to edit (payment, purchase, or advance).

Deleting:

choose the 'Delete' option and double-click on the appropiate item.

You can also click on the icon ==>
