Wallpaper INSIDE ProgManager, File Manager!
Allows different bitmap backgrounds inside
any Windows MDI application, including the
File Manager, Program Manager and many others
from other vendors. Supports 256 colors, and
random selection at start or on a time basis.
Choose a different graphic for each program,
each run, or tile one of the standard Windows
backgrounds. From Oakley Data Services and
Shareable Software Int'l.

Once the program is launched, maximize the
Program Manager and click on the right button of
your mouse.
