

**DocuPower Pro™ 3.x**  
**Document Management System for**  
**Microsoft® Word for Windows™**

**Supplemental**  
**Functions Installer**

– Installs File Find, Text Search &  
Windows System Status Utilities –

*This auto-installer is designed for use with Word for Windows 2.x.  
WinWord 6.x users please open the included document, XTRA-WW6.DOC.*

**Double Click Button To**

***Before You Begin***

This file is more than a simple Word for Windows document. Double clicking the button above will install supplemental *DocuPower Pro™* function libraries to **your** copy of Word for Windows. These DLL files will provide you with the following additional utilities: File Find, Text Search, and Windows System Status.

These functions will be automatically integrated into your copy of *DocuPower Pro™*. If you haven't already installed *DocuPower Pro™*, please do so before installing these supplemental function libraries.

***Extra Features: Free!***

Upon automatic installation of the supplemental function libraries, your copy of *DocuPower Pro™* will be enhanced with the addition of the features described below:

***File Find and Text Search***

**File Find** and **Text Search** will allow you to reclaim your "missing files". A successful search will compile a list of files that match your specified criteria. You may then choose to either open these files in WinWord, or add them directly to any *DocuPower Pro™* folder.

***Windows System Status***

The **Windows System Status** utility reports important information about your system — total

memory, system resources, remaining hard drive space, drivers, etc. It also provides you with convenient push-button access to edit your WIN.INI, SYSTEM.INI, AUTOEXEC.BAT, and CONFIG.SYS files.

For more information about how to use these utilities, please see MANUAL.DOC in your *DocuPower Pro™* program package.
