DocuPower Pro™ *3.x*
Document Management System for
Microsoft® *Word for Windows*™

Supplemental Functions Installer
– Installs File Find, Text Search & Windows System Status Utilities –

This auto-installer is designed for use with Word for Windows 6.x.
WinWord 2.x users please open the included document, XTRA-WW2.DOC.

Double Click Button To

Before You Begin

This file is more than a simple Word for Windows document. Double clicking the button above will install supplemental *DocuPower Pro*™ function libraries to **your** copy of Word for Windows. These DLL files will provide you with the following additional utilities: File Find, Text Search, and Windows System Status.

These functions will be automatically integrated into your copy of *DocuPower Pro*™. If you haven't already installed *DocuPower Pro*™, please do so before installing these supplemental function libraries.

Extra Features: Free!

Upon automatic installation of the supplemental function libraries, your copy of *DocuPower Pro*™ will be enhanced with the addition of the features described below:

File Find and Text Search

File Find and **Text Search** will allow you to reclaim your "missing files". A successful search will compile a list of files that match your specified criteria. You may then choose to either open these files in WinWord, or add them directly to any *DocuPower Pro*™ folder.

Windows System Status

The **Windows System Status** utility reports important information about your system — total memory, system resources, remaining hard drive space, drivers, etc. It also provides you with convenient push-button access to edit your WIN.INI, SYSTEM.INI, AUTOEXEC.BAT, and CONFIG.SYS files.

For more information about how to use these utilities, please see MANUAL.DOC in your *DocuPower Pro™* program package.
