

WinJammer Version 2.20
For Microsoft Windows 3.1
(C) Dan McKee, 1992
WinJammer Software Limited

WinJammer is a fully featured MIDI sequencer for Windows 3.1. It uses standard MIDI files, giving you access to a huge number of songs. WinJammer also contains a companion program called WinJammer Player, which is used to play MIDI song files in the background.

Major features of WinJammer include:

- imports Adlib ROL files
- up to 64 tracks
- runs in ALL Windows modes (including enhanced mode)
- very powerful editing commands
- unique piano roll style notation for editing
- full online help
- supports standard MIDI files
- supports MIDI system exclusive bulk dumps
- supports Windows Multimedia Extensions
- supports real time (embedded) system exclusive events
- supports up to 256 MIDI channels

Major features of WinJammer Player include:

- supports standard MIDI files
- up to 64 tracks
- runs in ALL Windows modes (including enhanced mode)
- in enhanced mode, will even play while in DOS
- full online help
- builds albums of songs to play (forever if desired)
- supports Windows Multimedia Extensions
- supports real time (embedded) system exclusive events
- supports up to 256 MIDI channels

The following equipment is required to use WinJammer:

- PC running Microsoft Windows 3.1
- a mouse (not strictly required, but very handy)
- some MME compatible MIDI devices

Any MIDI device supported by the Multimedia Extensions is supported by WinJammer. This includes Adlib/Sound Blaster series of cards, and the Roland MPU-401 type of devices, including the MT-32, LAPC, SCC-1 family of devices.

Installation

If you are upgrading to WinJammer from a previous release, please see the next section. Otherwise, simply create a directory and copy the files into it. You should have the following files:

- WINJAMMR.EXE - WinJammer executable
- WINJAMMR.HLP - the online help file for WinJammer
- WJMRPLAY.EXE - WinJammer Player executable
- WJMRPLAY.HLP - the online help file for WinJammer Player

MIDILIB.DLL - DLL which runs the MIDI hardware
README - this file
SONGS.DOC - explanation and credits on sample songs
MIN-G.MID - Bach's Minuet in G (kind of)
GREENSL.MID - Nice arrangement of Greensleeves
CHINESE.MID - Chinese Dance from the Nutcracker
PALETTE.MID - Just a Closer Walk with Thee
WHATSNEW.DOC - description of recent changes

Add the programs to program manager using the File New command of program manager. Double click on the icons to start the programs.

Once WinJammer is started, use the MIDI Configure command to configure WinJammer for your hardware. The help contains a Quick Start topic which may also be interesting.

Registration

WinJammer is not a free program, but is being distributed under the Shareware concept. This allows you to evaluate the program to determine whether it is worth anything, and then buy it if you are going to use it. You must register the program if you are going to use it.

The version of WinJammer you have is fully featured. If you use WinJammer after a reasonable evaluation period of two weeks, register the program. If you don't think WinJammer is worth the money, let me know this too, and I'll see if I can satisfy you with the next release.

Registration costs \$50 US. To register, simply send me a cheque or money order for \$50 US at the address below. Registrations are also accepted through CompuServe or Software Excitement!. For information on registering through them, please read the Registration topic in the Help file.

I can be reached at:
WinJammer Software Limited
Dan McKee
69 Rancliffe Road

L6H 1B1

Please note that I live in Canada, and a letter costs more to mail to me from the US than a domestic letter would. At the moment, postage from the US to Canada is 40 cents.

Legal Stuff

WinJammer and WinJammer Player are copyrighted programs. They may not be changed or modified in any way except by the author. WinJammer and WinJammer Player may be freely distributed so long as all files are included and no money is charged. A small copying fee not exceeding \$10 US may be charged.

All warranties are disclaimed, including damage to hardware and/or software from use of this program. In no event will I be liable to you for any damages, including lost profits, lost savings or other incidental or consequential damages arising out of your use or inability to use the program, or any other claim by any other party. In any event, the extent of my liability is limited to amount of money received by me from you.

Every effort has been made to ensure that WinJammer is as clean and free of bugs as possible. However, no program can ever be guaranteed to be free of all defects.

Advertisement

I am also selling a developer's kit which will allow you to develop your own Windows MIDI programs. Check out the details in the help file.

Wrapup

I truly hope you enjoy WinJammer. Please help me distribute this product as widely as possible by making sure all your favorite bulletin boards have a copy. Look for future enhancements of the program coming soon to a BBS near you.

Thanks go out to all of you who have contributed suggestions and bug reports. Because of you, WinJammer is a much better product. Special thanks go out to all of you who tested this version for me - you're great.
