BLACKBOX v2.0

Greetings and Salutations,

Everybody should be familiar with this game if it isn't the nth version you've seen, but try it anyway. It installs like any other Window's program through the Program Manager.

Files which should be in the same directory:

BLACKBOX.EXE
BLACKBOX.HLP

The program will create a file called:

BLACKBOX.INI

so if you move it, remember to move this file too, or
if you want to reset the default parameters, just delete
it.

It is only a small piece of fluff...

...but if you find yourself playing it a lot, send
$10.00 to the address below.
