KBS: Trivia Challenge

Getting Started

KBS: Trivia Challenge requires VBRUN100.DLL to run.
VBRUN100 is a Microsoft library for running
Visual Basic programs and needs to be in either the directory
with the software to be run or the Windows System Directory.
Ideally, you should only keep the latest copy of VBRUN100
and keep it in the Windows System Directory.

To Install Trivia:

1) Start Windows.

2) run a:\setup.exe (either by double clicking on the file
                        in File Manager
                        or by entering A:\setup.exe
                        on the File-Run command line.)

3) Specify the destination directory when prompted.
   Installation will complete by adding the Trivia
   icon to Program Manager.

4) Double click the Trivia icon.

5) Select File-Begin Quiz to start playing.

6) File-About.
   This option displays the KBS: Trivia Challenge title page.
   If you need technical assistance or wish to register,
   our address and phone number appear on this screen.

Registration is $ 25.00 .
Florida residents must include 6% sales tax.
For your convenience, the file Registrn.wri may be printed out and sent
in with your order. KBS Technical Support may also be obtained via
          Compuserve (70062,3526) or Prodigy (CJBM05A).

We thank you for trying KBS: Trivia Challenge and hope
that you enjoy the game.
