

*---A macro to transpose a 3-D or 2-D columnwised range to rowwised range or wise versa. This macro is for a range contains labels or values but NOT formulas. To transpose ranges contain formulas see the TRANSPOS.WK1 macro.

*---Use the /Range Name Label Right {End} {Down} <ENTER> to define the range names in this column (starts with the \Z macro name)

*---Highlight the cell to be calculated

*---Hold the <ALT> key and press <Z> to activate the macro
