*---A macro to insert a ruler for printing measurement. The ruler lines
   will be ignored when included in the print range. The ruler takes
   two rows, insert or clean two empty rows for the ruler.
*---Use the /Range Name Label Right {End} {Down} <ENTER> to define the
   range names in this column (starts with the \Z macro name)
*---Place the cell poineter where you want the ruler
*---Hold the <MACRO> key and press <Z> to activate the macro
