WORLD CLOCK

Version 2.1

V E N D O R   I N F O R M A T I O N

Last updated: May 1996

This file provides information for Shareware Distributors, Disk Vendors and
Computer Clubs who wish to distribute the World Clock v 2.1 package.

Individual and Company Users: Please refer to readme.txt for information.

                    Distribution Requirements

Individuals who wish to distribute the World Clock package to friends or
associates may do so in accordance with the restrictions outlined in
readme.txt

Computer Clubs and User Groups wishing to add the World Clock package to
their disk library may do so in accordance with the Distribution
Restrictions listed below.

If you would like your Computer Club or User Group to be placed on our
mailing list for future upgrades to any of our products, please contact
us for complete details.
Our address, phone number, and eMail address are listed at the end of this document
as is all the text relating to this program

Vendor/Distributor Information

World Clock, Version 2.1 - Vendor.DOC -

The World Clock package is defined as containing all the material listed
in the PACKING.LST text file. If any files listed in the PACKING.LST text
file, or the PACKING.LST file itself, are missing, then the package is not
complete and distribution is forbidden. Please contact us to obtain a
complete package suitable for distribution.

The World Clock package - including all related program files and
documentation files - CANNOT be modified in any way and must be distributed
as a complete package, without exception. The PACKING.LST text file
contains a list of all files that are part of the World Clock package.

  Small additions to the package, such as the introductory or installation
  batch files used by many shareware disk vendors, are acceptable.

Disk Sets & CD-ROMs:
~~~~~~~~~~~~~~~~~~~~
The World Clock package CANNOT be sold as part of some other inclusive
package. Nor can it be included in any commercial software packaging
offer, without a written agreement from Hard-Drive Software.

The World Clock package cannot be "rented" or "leased" to others.

You may not list any of our products in advertisements, catalogs, or other
literature which describes our products as "FREE SOFTWARE". Shareware is
"Try-Before-You-Buy" software, it is not free.

Hard-Drive Software prohibits the distribution of outdated versions of the
World Clock package, without written permission from Hard-Drive Software.
If the version you have is over twelve (12) months old, please contact us
to ensure that you have the most current version. This version was
released in May 1996

Licensee shall not use, copy, rent, lease, sell, modify, decompile,
disassemble, otherwise reverse engineer, or transfer the licensed program
except as provided in this agreement. Any such unauthorized use shall
result in immediate and automatic termination of this license.

All rights not expressly granted here are reserved to Hard-Drive Software.

Applying for ASP Associate Membership:

If you would like to apply for ASP Associate Membership (to become an ASP
Approved Vendor), simply write to the following address and request a
Vendor Membership Application Package:

ASP Executive Director
545 Grover Road
Muskegon, MI 49442-9427
U.S.A.

or send a CompuServe message via CompuServe MAIL to ASP Executive
Director 72050,1433. You may also FAX a request to the ASP Executive
Director at 616-788-2765.

Please Help Us Serve You Better:

We would appreciate copies of anything you print regarding World Clock.
Please send us a copy of any reviews, articles, catalog descriptions, or
other information you print or distribute regarding the World Clock
package. Thank you for your time and assistance and for supporting the
shareware marketing concept.

Thank you for your support!

Vendor Update Program:

Most non-ASP vendors have standard procedures for acquiring new files.
They get them from other vendors, BBSs, etc. Most authors cannot afford to
mail disks to hundreds (perhaps thousands) of vendors. However, some
vendors prefer to obtain programs directly from the authors. If you would
like to obtain programs directly from us, automatically, then please help
us to cover the cost.

If you are NOT an ASP Approved Vendor (in good standing), but you would
still like to receive automatic updates directly from us, then please take
advantage of our Vendor Update Program. Under this program you can receive
updates for an entire year for only £10 per program (this helps to offset
our costs).

To receive updates, simply send us a letter with your name, company name,
mailing address, the name of the person we should contact (such as your
disk librarian), the program (or programs) for which you would like to
receive updates, and a check or money order for £10 for each program

The Vendor Update Program is available for the following products (as of
May 1996):

RedHand
World Clock

All vendors participating in our Vendor Update Program will automatically
receive any NEW programs which we may release while their Vendor Update
Program is in effect.

NOTE: ASP Associate Members automatically receive free updates and do not
      need to apply for the Vendor Update Program. This is yet another
      advantage to being an ASP Associate Member.

The Vendor Update Program is only intended to help us cover our expenses in
those cases where a vendor desires to obtain the program directly from us.
If you have other standard ways to obtain programs, then you may prefer not
to use our Vendor Update Program.

How to Contact Hard Drive Software

Address:

Hard Drive Software
2 Old Ansford Inn
Castle Cary
Somerset
BA7 7JG

Telephone +44 01963 351470 (7pm - 10pm only please (BST))
eMail: hddw24 @ pavilion.co.uk

Program Details:

Name: World Clock
Version No: 2.1
Version Date: 8/4/96
Platform   IBM 80386, Windows 3.1 or better (Works with Windows 95)
Registration Fee: £6
Registration Benefits: 3.5in master disks
                         Unlimited support
                         Free upgrade to next version
App. Size: 31k

Short Description:

Displays multiple time zones on your desktop

Long Description:

If you spend a lot of time on the Internet, or make international telephone calls,
then you will appreciate the need for this little application as you often need to
know the time in different parts of the world.

World Clock displays local time as well as two international times of your choice, all three of
which can be very easily changed, with virtually instant readout. If two international
times are not enough, multiple instances of World Clock can be started to provide as many as
you like.

An easy method of setting the system clock and date is also provided, and the current date is
displayed in the title bar.
There is also an alarm facility, which can run in the background if required.

Features:
 Can be made to "Stay On Top" of all other windows
 Over 340 countries/states listed
 Alarm feature will run even when the clock is minimised
