Introduction

CT Calendar is, well, a calendar for your desktop. We have tried to keep it small enough to keep on your desktop, if you wish, but large enough to read without a magnifying glass.

There is really only one thing about the program that merits special mention here - right-clicking anywhere on the program will alternately expose and hide the "controls" part of the program.

Please be certain to explore the **Options** dialog, as there are many customizable features of CT Calendar that can be accessed from there. The dialog is self evident, so, just take a look for yourself.....

Registration

CT Software

759 Galleon Lane   -   Elk Grove, IL 60007

USA

1-800-617-7740

This program is free of charge with the registration of any CT Software Windows 95 shareware program, otherwise............

This program is shareware, and, as such, may be used freely for a period of 30 days. If, after the 30 day evaluation period expires, you find this nifty little utility useful, and plan to continue using it, you are required to register the program.

By supporting the shareware concept you are helping to ensure its continuation, which, I think you'll agree, will benefit us all.

If you wish to register the program, we do accept VISA and MASTER CARD. Our toll-free registration number is **1-800-617-7740**. The cost of registration is **$10.00**. If you would like a copy of the program on diskette, there is an additional **$2.00** shipping and handling charge.

If you prefer mail, please send a check in the amount of **$10.00** to the above address. Be sure to include your name, address, e-mail address, and the exact name of the program, so that we can immediately send you the registration information. If you would like a copy of the program on diskette, there is an additional **$2.00** shipping and handling charge.

CT Software Home Page

Please feel free to visit our WEB site, as it will allow downloading and access to complete product descriptions of the very latest version of all of the shareware offered by **CT Software**, in addition to offering links to other excellent shareware programs. The URL is
"http://members.aol.com/ron2222".

Other Programs by CT Software

CT HotSpot

CT HotSpot is a small utility with which you can create 2 hotspots - 1 to turn your screensaver on, and the other to turn it off. This can be quite useful when downloading a large file, doing a tape backup, or when using the Windows 95 utility, *DEFRAG*. Having a screensaver come on during any of these activities can wreck havoc with your computer and your files.

DiskCopy

DiskCopy is a simple little 32-Bit program for formatting and creating duplicate disks. **DiskCopy** will prompt you for the number of copies you have in mind, making for a very quick operation. **DiskCopy** does not perform an actual track by track copy, it simply copies the directory structure and files, but 99% of the time, that is all that is really required.

Notebook for Windows 95

There is one, and only one point to this program - to replace Notepad. **Notebook** is not a word processor. It's sole purpose is to view and edit text files. **Notebook** does have 6 major features (and several minor ones) which we believe make up for Notepad's inadequacies:

1. It will open **very large files**, and allow you to edit them.

2. It features full font control - you can set the font name, style, size, and color, and your settings will be saved when you exit the program. It will look better on your screen, and do a much better job of printing.

3. **Notebook** has a toolbar complete with help balloons.

4. **Notebook** features *DRAG AND DROP* text editing. If you want to move a block of text, just use the mouse to select it, and drag it to where you want it.

5. **Notebook** supports overtype mode. While the default editing mode is insert, hitting the INSERT key on your keyboard will change that to overtype.

6. **Notebook** can both print and/or save to a file **selected text only**, if desired.

Safety Net

Safety Net is a highly acclaimed utility for backing up key files by file extension. It has one default setting - to backup key "windows" and system files including INI files, Registry Files, CONFIG.SYS, and AUTOEXEC.BAT- and 5 user configurable options. **Safety Net** could easily backup all of the document and/or database files on your drive, for example, with the directory structure **intact**, and it can ZIP them to disk (*PKZIP is required for this option*)! **Safety Net** can also print file lists, print your directory tree, and make a boot disk.

Winsock Swapper

The purpose of **Winsock Swapper** is to automate the process of swapping various WINSOCK.DLL files for those of you who use more than one Internet service provider with your default Web Browser. With one quick double-click, you can swap up to three DLL's, and optionally launch your browser. It doesn't get any easier than that!

YahtC

This game is a clone of the immensely popular game, Yahtzee. **YahtC** combines attractive 3D graphics with extreme ease of use. There are no complicated instructions, and no hidden forms. Each player's score is always visible. A sound card, while certainly not necessary, will greatly enhance the game, which produces sound effects when a player rolls the dice, "zeroes" out a scoring category, or rolls a "YahtC". The game will also keep a permanent record of High Scores, which can be easily cleared at any time. **YahtC** is fully functional, and supports up to 4 players.
