

## HyperTerminal Private Edition

HyperTerminal Private Edition is a more powerful version of the HyperTerminal program that comes in Windows 95. Once you have seen the quality, speed, and ease of use of these entry-level products, we hope you will be anxious to upgrade to our full-featured product, HyperACCESS. HyperACCESS brings you these and many other benefits:

- Record and play back logons and other repetitive steps
- Define your own keys and buttons with text or bitmap labels
- Automate communications with a powerful script language
- Make the backscroll buffer as large as you want
- Be protected from computer viruses in files you download
- Additional terminal emulators and file transfer protocols

For sales information on full-featured Hilgraeve products, ask any software dealer, or call Hilgraeve sales lines at **800-826-2760** (US and Canada), 313-243-0576, fax 313-243-0645 or [sales@hilgraeve.com](mailto:sales@hilgraeve.com).

Hilgraeve supplies HyperTerminal Private Edition free for your personal use. The evaluation period for use by or on behalf of a commercial or government entity is 90 days. Read the section in the README.TXT file entitled Your Rights and Ours for more detail.

Send comments or bug reports to our web page (<http://www.hilgraeve.com>) or the HyperTerminal BBS (313-243-9957). We read all messages but seldom answer back, so please expect no response. User input is important to us. We appreciate your taking the time to send it.

The best way to get information on HyperTerminal Private Edition is our webpage or to subscribe to the HTPE mail list. Details on subscribing are in the README.TXT file.
