

Dialog1

Power Utility Pak

The Power Utility Pak worksheet functions are now available. You can access them by using the Function Wizard.

OK

NOTE:

The shareware versions does not contain the complete set of worksheet functions.

~Don't show this message any more

XLMSheet

This XLM macro is here only to provide a function that is assigned to a custom category (Power Utility Pak). VBA functions cannot use a custom category unless it is created in XLM.
