E-Mail: dano@kiva.net

Homepage: <http://www.kiva.net/~dano>

Price: FREE!! Some email would be nice, though... :)

Other Themes: Pirates, Brickyard 400, Art of Noise, Diablo,
Daffy, Buccaneers, ALIENS: The Movie

Hello. Thank you for trying out this theme.

INSTALLATION:

- 1) Open the AbyssTM.ZIP file in WinZip.
- 2) Click on the EXTRACT button.
- 3) This will open the Extract Window. In the "Extract To:" box, select the directory that contains your themes. Will probably be C:\PROGRAM FILES\PLUS!\THEMES
- 4) In the "Files" box, select "All Files".
- 5) Check "Overwrite Existing Files" and "Use Folder Names".
- 6) Click on the "Extract" button. This will automatically create an Abyss - The Movie directory in your themes directory and extract the files there.
- 7) Load the theme with the Desktop Themes program.

CHANGING WALLPAPER RESOLUTION:

If you notice, I have included two versions of the same background image. One is for 800x600 desktops while the other is for 1024x768. I've done this because Windows doesn't do a very good job at resizing the background. If you want to change from one background to the other, follow these steps...

- 1) Open the .theme file in a text editor
- 2) Find the line that contains the background's filename (or just search for .jpg)
- 3) Replace the old name with the new
- 4) Save the .theme file

Now when you load the theme again, it will use the new background.

Enjoy!

Dan

Note: AJ's Desktop Themes (<http://www.desktopthemes.com>) is FORBIDDEN to distribute this or any of my other themes as he manipulates the original archive and CHARGES (!?!) to download from his site.
