Desktop Themes by *Kreations*

Alanis Morissette Desktop Theme

Thank you for downloading my Desktop Theme. If you enjoy and use this theme, please consider a small donation for it. While this theme is shareware and I enjoyed Kreating for you, it does get expensive (Software, Internet Access, System Upgrades etc....). Please help me to continue Kreating these high quality themes for your enjoyment. Send any donations to:

Instructions

First you must have the Microsoft Plus! software installed on your system.
Extract files using a package such as WinZip.
Create a folder with the name of this theme in your themes directory
i.e. C:\Program Files\Plus!\Themes\
Extract the theme file (theme name.Theme), to the Themes directory. Not the new folder you just made!
Extract all other files to the folder you just made.
If there are startup, shutdown or screensaver files with this theme then you must extract the "logo.sys" to your C:\ directory and the "logos.sys", "logow.sys" & "(theme name).scr" files to your C:\Windows directory.

That should do it!
Thank you for taking the time to read this and thank you in advance for any donations.
Take care.
                Kevin
