License Upgrade - We Need More Licenses!

Sometimes your initial license isn't going to be enough. In this case, you can upgrade your license(s) to a larger license.

Licenses may be upgraded from student, individual, or user group sublicense to a full site license, with the restrictions covered under **Site Licenses**. Single-user licenses may be pooled when upgrading. If the resulting site license would cost less than the total cost of the original licenses, as when upgrading four

individual licenses to a ten piece educational site license, I will not reimburse the difference (though the license itself will be changed). Also, license upgrades may not occur between single-user license classes. For instance, five individual licenses may not be rolled over into eight user's group sublicenses. Licenses may also be upgraded from a site license to a larger site license.

To upgrade your license(s), simply fill out the license panel as you normally would to register the new license. In the Comments field, indicate the size, cost, and the date of purchase of your previous license(s). If the exact date is not available, please

make an estimate. Include the **positive** difference in price between the new license and the previous license(s) as your payment. As noted above, in some cases payment may not be required.
