## Mission Critical Solitaire Release Notes Ð Version 1.1

Thank you for your interest in Mission Critical Solitaire. This distribution contains either a Multi-Architecture Binary ready for use with NEXTSTEP release 3.1+ or it contains an m68K (black hardware)-only release ready for use with NEXTSTEP release 3.0.

### **Version 1.01 Notes**

Version 1.01 fixes a few minor bugs and incorporates support for new features in CrashCatcher.

There is one known bug in this release. On Intel machines, the card back art-work will occasionally disappear.

### **Reporting Bugs and Making Suggestions**

WhiteLight Systems values your feedback. Besides helping us to address your immediate needs, we use your feedback to help determine where to direct future development efforts. Send your bug reports, suggestions and technical support questions via e-mail to [support@whitelight.com](mailto:support@whitelight.com) (*Internet*).

Mail queries to: WhiteLight Systems, Inc.  
Attn: CrashCatcher Support

350 Cambridge Ave., Suite #200  
Palo Alto, CA 94306

Send FAX queries to (415) 321-2083.

For telephone support, call us at (415) 321-2183.

Include the following information with every query/suggestion:

Your name, organization, telephone number and address.

The name, version and serial number of the software package in question.
