Windows 3.1 Screen Saver Pack

The Windows 3.1 Screen Saver Pack extends the life of your computer monitor with the following colorful screen savers: "Clock", "Dancing Lines", "HyperCycloids", "Life", "Snakes", "Spheres", and "Zoom".

A demo of the Photo Album Screen Saver is also included. You can order a customized version of this program containing your favorite photographs (see below for further details).

Required Hardware and Software

'286 or better CPU running Microsoft Windows 3.1 or later.

Installing the Software

1.   Copy all `.SCR` files into your `\WINDOWS` directory.

2.   Go to the Control Panel and double-click the Desktop icon.
        In the Screen Saver box, select a screen saver.

3.   Press the Test and Setup buttons to preview and configure
        the screen saver.

Distribution and Payment

The Windows 3.1 Screen Saver Pack may be freely copied without cost, provided it is not changed in any way. If you find the software useful, please send $5.00 to:

Pocket-Sized Software
8547 E. Arapahoe Road
Suite J-147
Greenwood Village, CO 80112 USA

The Photo Album Screen Saver

To receive a customized version of the Photo Album Screen Saver containing 10 of your favorite photographs, please send your photographs and $30.00 plus $2.50 postage and handling to:

Pocket-Sized Software
8547 E. Arapahoe Road, Suite J-147
Greenwood Village, CO 80112 USA

In addition to your custom screen saver, you will also receive scanned images of your photographs in .BMP format, suitable for use as Windows wallpaper or inclusion in word processor documents, etc.

Please specify disk preference: 3½" or 5¼" high density.

Photographs will be returned with your screen saver. Pocket-Sized Software is not responsible for photographs lost in the mail.

The Photo Album Screen Saver requires Windows 3.1, a graphics card capable of displaying 256 colors, and a 256 color graphics driver.
