

Species at Risk

And their Habitats

Grade 4 - Manitoba

What is this product?

A CD containing a 41 slide (approx. 30 min.) MS Powerpoint presentation in both French and English. You will also find 'Teacher Notes' in Adobe PDF format, as well as the links to the Manitoba Science Curriculum.

Who is the audience?

Grade 4 to 6 students in the Prairie Provinces.

What Manitoba Learning Outcomes does it address?

Grade 4 Science: Cluster 1 – Habitats and Communities

4-1-01 Uses appropriate vocabulary related to habitats

4-1-02 Recognizes that each plant and animal depends on a specific habitat to meet its needs

4-1-03 Identifies the components of an animal habitat

4-1-07 Investigates and describes a variety of local and regional habitats and their associated populations of plants and animals

4-1-13 Predicts how the removal of an animal population may affect the rest of the community

4-1-14 Investigates natural and human-caused changes to habitats and resulting effects

4-1-15 Describes how their actions can conserve plant and animal populations and their habitats
