Saving Files

Native formats:

TextArt Effects: see "Effects"

TextArt Documents: these have a ".textArt" suffix, and an icon which has the upper half of the program's icon, with the word "Doc" at the top of it.

To save a TextArt Document, choose "Save" from the Window menu while a Compose Document is the key window.

To open a TextArt Document, choose "Open" from the Window menu.

You can save single EPS graphics from the Image Window by choosing "Save To" from the Window menu, and selecting the "Postscript" radio button from the Save Panel.

You can save an entire Compose Document to TIFF, EPS, or Draw format by choosing "Save To" from the Window menu while a   Compose Document is the key window.
