### 1.1 AGA Games

X3366 ROCKETZ V1.0 UNPACK DISK

-----  
Rocketz is a 2 player multi directionally scrolling split-screen shootemup racing game similar in concept to a combined version of thrust and asteroids. The graphics are fully raytraced and the sound is of commercial quality, normally unheard of in shareware titles. This is one EXCELLENT game. Buy it today.

\*\* SHAREWARE \*\*

X3388 MR BROWNSTONE UNPACK DISK

-----  
Another boulderdash clone.

X3389(AB) JINX UNPACK A B

-----  
JINX (AGA) is an innovative 25 level, diamond collecting puzzle game, incorporating superb graphics and original sound fx. With amusing storyline and end sequence and save game option. It is a sort of follow up to Masqurade (Disk X3188(AB))

X3397(ABCD) KLONDYKE 3 UNPACK A B C D

-----  
The latest version of this now classic AGA card game. This version has a few minor bug fixes but also contains ShowReko - a utility to show all the cards in a set and a Reko cardset creator.

\*\* HARD DRIVE REQUIRED \*\*

X3526 VIPER AGA UNPACK DISK

-----  
Viper is a snake game, but is not just another snake game. The most impressive feature is that it allows you to steer in any direction (at any angle). It also allows up to six computer or human controlled players. Give it a try, I think you'll like it.

X3564 SAMURAI SHOWDOWN UNPACK DISK

-----  
A beatem up with some interesting special moves. Average.

---

X3570 ROKETZ V2.25

UNPACK DISK

-----  
The latest version of this excellent 2 player only thrust style game. New features include :-

- \* Improved gameplay
- \* Loads a bit faster
- \* HD installer included
- \* User selectable control method (keyboard, joy)
- \* Now even works on CD32 ;)

X3646 STEP 5 AGA

UNPACK DISK

-----  
This is an excellent AGA tetris game. You know what tetris is so if you have got an A1200/4000 then either buy it, or dont. Simple as that.

X3675(ABC) CARD GAMES DELUXE

UNPACK A B C

-----  
CardGames Deluxe contains two games, BlackJack and VideoPoker. Both these card games are fully compatible with the REKO cardsets made for Klondike 1/2/3 by REKO Productions. Both games are standard versions. No jiggery pokery to confuse people. A hard drive is required to run it properly and a monitor is essential cause the screen runs in Hi-Res Interlace. If you have only got a TV, make sure you have some dark bins around or the flicker will probably send you round the bend. EXCELLENT.

X3680 PSSST AGA

UNPACK DISK

-----  
Remember this old classic Speccy game from Ultimate Play The Game. You will if you're an old git like me. Well its been updated for the ninetys. Given some AGA colours and stuff AND it has a turbo option. No other library has this version. Its exclusive to us. SO THERE. Also on here is the version for the speccy emulator.

X3704 BATTLE DUEL AGA

UNPACK DISK

-----  
Another superb Scorched Tanks clone. This one has the following features:-

- can be played with up to 4 players
- offers computer opponents with selectable difficulty
- has 4 play modes: normal duel-mode, 2 tournament-modes and a practice mode
- is programmed completely (hm, nearly) system friendly
- is multitasking friendly
- adjusts to AGA automatically (only 1 program)
- has nice graphics and sound-effects
- has a nice gadtools interface

X3787 DELUXE PACMAN V1.6 AGA

UNPACK DISK

-----  
Our yellow hero Pacman must eat all of the pills in the maze to get to the next maze. But danger lurks in the maze. Four evil ghosts are looking for Pacman, and they want to stop Pacman from getting to the next maze. In the maze there are some power pills that Pacman can eat, and he can then kill the ghosts for a limited time. There are also some fruits that popup from time to time, and Pacman can eat these for extra bonus points. And sometimes some special tools will appear which, when eaten, may affect Pacman or the pills or even the ghosts. Some will speed up Pacman, some will give random points

---

and some will lead to extra levels.

X3794(AB) MALEDICTION V3.0 UNPACK A B

-----  
The first ever 3D texture mapped game arrives on the Amiga. Bits nicked from all sorts of games in here. Doom, Space Hulk, Dungeon Master, Hired Guns etc etc. You can choose different characters, weapons, scenery etc etc. Excellent.

\*\* FAST RAM & 030 PROCESSOR RECOMMENDED \*\*

X3810 BREAKIN BRICKS AGA UNPACK DISK

-----  
Remember that old classic Break Out, hmm ?? This game has a lot of the same ideas (hm.. hm..) as the old classic has. The basic idea is very straightforward. You must use your mouse to move the 'bat' from left to right and from right to left, and try to hit the ball !!! If this ball accidentally hits one of the funny blocks on the screen, you get lots of points !!!! This is a suped up AGA only Hard drive only version.

X3811 FEARS UNPACK DISK

-----  
This is the one level playable demo of the game supposedly very similar to Doom.

X3847 NOSTROMO CHEATS V5.00 AGA UNPACK DISK

-----  
This edition has over 1200 cheats, including full solutions for DreamWeb and Valhalla 2.
