Chapter 1

amigaguide

1.1   Educational

```
+3364 KIDS DISK 6                        UNPACK DISK
-----------------
Only one educational title on this disk. For ages 4-7. Set in a sweet shop
with large bright colourful graphics, the child must add, subtract, and
count different numbers of sweets in the shop. Excellent.
** SHAREWARE **

+3410 MYTHOS GREEK                       UNPACK DISK
------------------
Mythos Greek is a reference book for anyone studying or interested in
classical Greek mythology. It is certainly not a complete work covering
everything ever mentioned in Greek mythology but it does give a damn good
go at it.

+3460(AB) A PHOTOGRAPHIC LECTURE         UNPACK A   B
--------------------------------
This is an excellent photographic tutorial entitled 'A Different Approach'.
Written by a photographer with over 30 years experience, this program will
teach you how to get away from taking pictures of 'the norm' i.e. sunsets
and swans, and experiment with some more radical ideas. The program is
written in AMOS and contains lots of IFF pictures and documentation.

+3555 WORLD HISTORY TIMETABLE            UNPACK DISK
----------------------------
The History Timetable is designed to give an interactive overview of
world history. Things have been kept basic but informative
so that the general student of history can see the general trends -
political, military, social, science and technology, religion and the arts.
Many events have been missed out but the author has tried to give the
widest possible scope covering everything important from wars to sport.

+3562(AB) TRAVEL GUIDE                   UNPACK A   B
---------------------
An excellent educational/learning package for anyone with a remote interest
in geography. Teaching about different countrys, their currencys, climates,
population etc etc etc. Superb.

+3589(AB) PHOTOGRAPHIC TECHNIQUES        UNPACK A   B
```

```
----------------------------------
```
An educational package explaining how to take better pictures then Lord
LichField. Using a Hyperbook frontend, incorporating pictures and text,
anybody who hasnt got a bloody clue could do worse then buy this set.

```
+3590(AB) PHOTOGRAPHIC TECHNIQUES 2          UNPACK A   B
------------------------------------
```
Written in hyperbook, this 2 disk package will show you how to get the best
from your holiday snaps whether using a shitty 5 quid Argos camera or a two
grand Mukahato. Lots of examples of using light etc and also a section for
posh gits who use videocameras.

```
+3631 OCTAMED AND MIDI TUTORIAL DISK         UNPACK DISK
------------------------------------
```
This OctaMED MIDI Tutorial disk has been balanced with a considerable
amount of information concerning MIDI from various articles on MIDI, an
animated OctaMED Pro 5 MIDI Tutorial – showing how to set up a MMD1 MIDI
Module from within OctaMED Pro 5 itself, there is also a series of tutorial
MMD1 MIDI Modules on this disk which will load and play from the menu system
itself. Alternatively, you may wish to load the OctaMED MMD1 MIDI Modules into
your version of OctaMED Professional (and why not!) and examine the structure
of these MIDI modules for future reference. It is hoped that this OctaMED
and MIDI tutorial Disk will provide a basic help and reference guide for
those OctaMED Professional users who wish to experiment using OctaMED Pro and
MIDI as well as using IFF/RAW Samples to make music on their Amigas!

```
+3666 AMIGADOS GUIDE V1.5                     UNPACK DISK
------------------------
```
The latest version of the workbench and amigados tutor for all you thickies
out there.

```
+3667 GCSE MATHS EXAM PAPERS                  UNPACK DISK
----------------------------
```
GCSE Mathematics Exam is an invaluable study tool for students aged
16yrs who are preparing for their maths exams. Students are invited to
answer real examination questions from past papers. Model solutions are
also provided BUT students still need to calculate the actual answers.

```
+3674(AB) GLOBAL FACTS                        UNPACK A   B
----------------------
```
GLOBAL FACTS was drawn from the latest available official sources,
these tables present an easy reference profile of significant world
physical, political and demographic as well as national data. This is a
great educational package for young and old thickets alike.

```
+3682 CAMERA FUNCTIONS                        UNPACK DISK
----------------------
```
Following on in the series. This instalment tells you what all the little
knobs and twiddly bits on your camera actually do. Written in hyperbook,
this is a very attractive piece of software.

```
+3683 THE COMPACT CAMERA                      UNPACK DISK
------------------------
```
Next episode contains information about the cheap crappers you can get at
Boots and tells you if they are actually any good or not.

```
+3793 BEGINNERS TYPING TUTOR                  UNPACK DISK
```

Not a typing tutor as such, but typing games and exercises to increase your
speed.

+3834 KIDS DISK 7   UNPACK DISK

The latest title in this superb kids educational series is based around a
holiday theme. Count the buckets and spades and things. Very very colourful
and includes lots of nice sound effects.

+3844(AB) CAMERAS & ACCESSORIES   UNPACK A   B

This program gives the novice, or those wishing to upgrade, some idea of
what the different types of camera available will do. Armed with this
information, even a print out, a visit can be made to the camera shop with
some real idea of what is required. You then come out with what YOU want,
not necessarily what the dealer wanted to sell you ! Having bought the new
camera, this program gives an idea of what is available to go with it. It
is probably wise to use the two programs in conjunction, as studying them
will tell the prospective purchaser exactly what is needed to fulfill all
their perceived needs.

+3845(AB) THE PORTRAIT   UNPACK A   B

This tutorial is a complete re-write of an earlier version talking about
how to shoot portraits. Probably the most common subject for the camera will
be people. Families, kids, pretty girls, characters etc. Studying the pages
of this computer tutorial will help the beginner get better results, and
there should be a few points that will help the more advanced worker too.

+3846(AB) DEVELOP & PRINT   UNPACK A   B

This program is a tutorial on setting up a darkroom to do your own
developing and printing. It also looks at associated processes. The keen
photographer is likely, eventually, to decide to have a go at printing in
black and white or colour. Following the advice given here will make the
initial experience that bit easier than 'going it alone'. It also includes
a section on processing the negative and other processing related text.
