

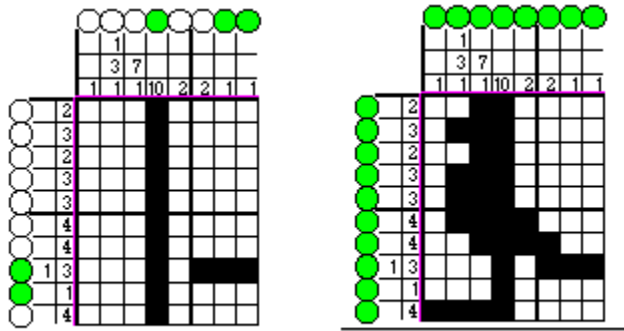

FigurePic™

Introduction

FigurePic is a unique game that blends logic and art into an addicting puzzle. The object is to uncover the hidden picture based on the numbers at the side and top. Most of these puzzles are not ones you will solve within five minutes so be prepared for hours of enjoyment.

How To Play

Use the left mouse button to darken a square and the right to erase. The numbers indicate how many groups of darkened squares there are and the size and order of each group of squares. The groups have at least one space between them and there may be spaces at the ends. In the simple example below the 4th column has the number 10 so we know that all the squares in that column are filled in. Then in the 8th row the 3 darkened squares must be marked as shown because there must be at least one space between the groups. Solve the rest of the puzzle in the same manner.

Commands

Game

Restore - Load another puzzle library if you have purchased more than one set of puzzles.

Exit - Exits *FigurePic* saving the work you've done.

Puzzle

Select - Brings up a view of the puzzle library. Click the mouse on a puzzle to work. Puzzles that are solved are shown in blue.

Hint - Fills in a column correctly on the current puzzle. Only three hints allowed per puzzle.

Play it again - After a puzzle is solved there is usually a short animation and sound clip.

Erase All - Erases all the puzzles that have been worked or partially worked.

Erase - Erases the current puzzle. (You now have three more hints.)

Options

Display Counts - These two numbers tell the puzzler how many consecutive squares are darkened in the row and column of the mouse click.

Sounds - Turns the sound effects on or off.

Exclude Square - Tells the puzzler that the marked square is NOT blackened.

Green Circles - These indicate when the proper number of squares are darkened in a column or row. The green circle does not necessarily mean the correct squares are darkened unless all the circles are green.
