

## 24 sided Ring Maker

**Instructions:**

DO NOT type in ANY area except light Yellow:

Type in your desired radius and any shift in X or Y coordinates desired

In your Resources file use the cylinder shape with the indicated length and the coordinates listed. Use the rotation listed on each line.

<b>Radius:</b>	100000	<b>Shift X</b>	0	<b>Shift Y(Z)</b>	0
----------------	--------	----------------	---	-------------------	---

<b>Length:</b>	26106
----------------	-------

HORIZONTAL RING			VERTICAL RING
