[Awesome Roulette](#) - Awesome Roulette is well....an awesome roulette simulation, a favorite in Vegas. Shareware: \$15

[Chiral](#) - From the authors of the highly-acclaimed game Maelstrom comes a new action puzzler entitled Chiral! Webster defines Chiral as "a kind of symmetry found in atomic particles that is not superimposable on its mirror image." Ambrosia redefines this dry scientific adjective with a mind melter of a puzzle game. Shareware: \$15

[Concentroids From Planet X](#) - Concentroids is based on the popular Concentration category of games. So what makes Concentroids different from the rest? Here's a brief feature list: scoring, high scores, nice graphics (tiles and backgrounds), animation, funky sounds, a background soundtrack, wildcard matching, and a time limit. Shareware: \$5

[urio Strip](#) - Control Stip is a collection of games, puzzles, illustrations and explorations to entertain the imagination and exercise the mind. Shareware: \$10

[yberNation](#) - Arnie the cyborg is trapped in the huge CyberNation cyborg factory. Humans are planning to destroy it, so Arnie must get out as soon as he can! Unfortunately, the building is guarded by other cybernetic organisms (like the dreaded Skulls and the pink-elephant-featuring wine bottles), and the Teleporters are incomplete -- they require Teleporter dishes in order to function. Each Teleporter enables Arnie to be sent to the next level. Escape is at the top level (4)... Shall he make it? Shareware: \$10

[eluxe Klondike](#) - This is a new version of Klondike Solitaire for the Mac, the classic card game that every solitaire player knows. Deluxe Klondike uses large colorful cards on the full 640x480 screen. It also gives the player a choice between several different textured backgrounds and includes digitized sound effects. It plays both versions of Klondike - the player can turn one card up at a time or three at a time Shareware: \$15

[opherGolf](#) - GopherGolf is an excellent miniature golf game with outstanding graphics! One of the better shareware games to come out in recent months. Shareware: \$15

[nfotron](#) - Infotron is a great colorful game puzzle game. You are Murphy, a bright red gumball. You must collect a certain number of infotrons by eating them, and reach the exit without dying. Shareware: \$10

[ngemar's skiing game](#) - Ingemar's skiing game is a wonderfully done skiing game. If you're into sports and skiing, you'll love this game. Shareware: \$10

[Q Test](#) - This program will give you an IQ test, and tell you your IQ. It automatically adjusts

for age. The IQ tests your ability to reason and think logically compared to other people. A score between 95 and 105 represents an average IQ. Shareware: \$8

[Lost !](#) - Lost ! is a colorful 3-D maze game. The object of the game is to find the prison where a beautiful princess is kept prisoner. You should try to save her! Freeware

[MacPro Baseball](#) - MacPro Baseball was created for those that enjoy simulating real Major League Baseball action. It is not intended to be an arcade-style game, but rather one in which the player gets to make strategic decisions about players in real game situations, such as setting the lineup, choosing pitchers, pinch hitting, calling on the bullpen, bunting, stealing, giving intentional walks. Shareware: \$20

[Missions of the Starship Reliant!](#) - The Missions of Starship Reliant! is a game that combines the swift action of an arcade game with the challenge of commanding a ship and its crew into battle. Unlike many action games, Missions! is more than a shoot-em-up; it requires careful strategy, interaction with your crew members, and the skill necessary to juggle the ship and its crew when confronted by a sudden, fierce attack by the enemy. Shareware: \$15

[Odyssey](#) - In Odyssey your goal is to save the city-state of Athenia from destruction at the hands of the sinister Chaos Master. To do so you will have to discover and do a great deal! Shareware: \$25

[Rescue!](#) - Rescue! 2.0 is the latest version of the multi-window, color-capable action adventure written by Tom Spreen and inspired by the Star Trek: The Next Generation™ universe! It's a fast-action rescue mission set in space which requires both strategy and arcade-style reactions. Shareware: \$10

[Space Pebbles](#) - Space Pebbles is an arcade-style "shoot 'em up" game. The mouse is used to control a small spaceship. The object of the game is to defend a spacestation (in the middle of the screen) from the bombardment of objects similar to meteorites. Shareware: \$7

[StarBound](#) - StarBound is an excellent space conquest game. The object the game is to expand your feeble empire to capture the whole sector of space you are in. You do this by balancing your planet's expenditure on technology, ships and planetary output. Once you have a large enough fleet to expand you explore and terraform planets, fight off ships in your territory, and conquer enemy planets that are weak. Shareware: \$15

[Sword Dream](#) - In Sword Dream you'll explore dark ruins and deep forests; save beautiful princesses and endangered realms; amass vast amounts of gold and jewellery; kill hideous monsters. Shareware: \$20

[TecnoManiac](#) - TecnoManiac is a wonderful 3-D tank game. Gameplay is on a 3-D grid with a barrier between you and your opponent. You have to adjust your turret, guns, etc to fire at your opponent. Shareware: \$10
