Think private college is out of reach? Think again. Last year alone, Minnesota's private, 4 year colleges gave out over 477 million dollars worth of institutional and private grants and scholarships that students did not have to pay back. In addition, the graduation rate at Minnesota's private colleges is the highest in the Midwest and ranks 4th nationally. Many of your teachers attended these great institutions, so ask them about it! Check out their door signs to find out who! And don't forget, you are college material.
