

Powerful solutions for smart management

A better e-xperience from NetVista desktops

Choose performance you can trust. Choose NetVista desktops.

The NetVista™ e-xperience

When you're looking for a distinguished family of desktops that provide simple deployment and migration and easy management, the IBM NetVista family of desktops gives you the choices you need. All of the members of the NetVista family—M Series, A Series and X Series—are designed to provide users with exceptional power and versatility, while easily fitting long-term plans. And select NetVista desktops offer features that add security to protect your valuable data.

eWEEK
Best Desktop Client,
NetVista X40

1st Annual eWEEK excellence Awards
February 2001

Making IT management easy

IBM NetVista desktops simplify deployment with a manageability strategy that relies on common systemboards, a single software image and a lengthy period of platform stability (select models). Businesses can move to the powerful next generation of desktops without risking headaches down the road. A host of intelligent management tools and services leave IT managers in control as the network evolves. Integrated connectivity, plus a wide range of options ensure that NetVista desktops are ready for almost any work environment.

Innovatively designed

There's a NetVista desktop designed to meet nearly any challenge. The stylish, award-winning NetVista X Series with its space-saving design and integrated flat panel monitor occupies up to 75% less space than comparable Pentium 4 desktop systems.

NetVista M Series and A Series models offer a choice of three different form factors¹ to provide affordable, stable solutions for your office. Add an award-winning IBM Flat Panel monitor to complete these desktops.

Achieve more with NetVista.

NetVista desktops: a track record of excellence

- NetVista has won more than 75 awards for excellence and design superiority
- IBM was the first to integrate a security chip in a PC²
- Toolless entry allows for quick and easy upgrades
- NetVista offers Data Migration³ options to streamline the move to Pentium 4

PC Award
Winner**

*NetVista X41
Intel® Corporation
Fall, 2001*

Confidently secure

The IBM Embedded Security Subsystem, available on select NetVista M Series and X Series desktops, consists of a security chip and IBM Client Security Software 2.0 (available by download). The security chip provides hardware-based protection of critical security information, while the IBM Client Security Software 2.0 provides the interface between security-aware applications and the functionality of the chip.

Ready to grow with you

IBM NetVista desktops are optimized for connectivity so users can tailor their environment to meet expectations. Embrace the future of communications with optional Gigabit Ethernet (select models). Eliminate wiring in challenging and expensive situations or just reduce the clutter of cables with an IBM wireless solution. Gain more flexibility with the new CD-RW/DVD-ROM combination drive that gives users the ability to put data on a disc to go. NetVista models can even help reclaim valuable desktop space with TFT flat panel monitors.

*“IBM is
the industry’s
quality leader.”*

—Technology Business
Research, Inc., September 2000⁴

Innovative designs backed by the power and manageability you'd expect from IBM characterize the NetVista family of desktops. Features like the **space-saving design** of the X Series models and the **IBM Embedded Security Subsystem** place these models at the forefront of computing. Management is made easy by **Wake on LAN®** and a host of software tools. Plus, NetVista models are **optimized for connectivity** with integrated Ethernet—or you can choose **optional wireless solutions**. You'll rest easy knowing that award-winning **IBM service and support is there when you need it.**

NetVista X Series models offer **extraordinary space-savings** through an innovative design. The X Series integrated flat panel PC occupies up to 75% less space than comparable Pentium 4 desktop systems.

A choice of **powerful Intel processors** tested with a variety of operating systems make NetVista desktops a clear choice for the migration to the next generation of computing platform.

Flat panel monitors, such as the IBM T560, add clarity and provide vivid, sharp images while saving lots of space. Choose from a full range of monitors to complete your NetVista M Series or A Series system.

Industrial Design Excellence Award,
NetVista X40i
Industrial Designers Society of America/
Business Week Magazine
June, 2001

*“ARS’ internal price/performance comparisons show the NetVista A21 as one of the most **competitively** priced product lines released by IBM for some time.”*

- Toni Duboise, ARS Desktop PC Analyst
(July, 2001)

NetVista desktop models make deployment easier with select workhorse models. These models share a **common systemboard and software image** in different form factors, simplifying management. Long-term image stability facilitates planning for large-scale deployment.

Integrated Ethernet with Wake on LAN provides **optimal network connectivity** on all models, while strategically located USB ports make it easy to add peripheral devices. Connect with wireless technology or add Gigabit Ethernet to NetVista desktops with options by IBM.

The security chip is at the heart of the IBM Embedded Security Subsystem (select models). By protecting data, network access and communications, the **IBM Embedded Security Subsystem** provides real peace of mind in today's e-business environment.

One click provides users with online support tailored to their system through Access IBM⁵. **Worldwide HelpCenter[®] locations** provide telephone support 24 hours per day, 7 days per week⁶. Warranty options* up to three years are available.

*See page 10 for additional warranty information⁷.

NetVista A Series

The NetVista A Series is designed for users who want leading-edge technologies like an Intel processor and enhanced multimedia features with the IBM quality you expect, and prices you can afford.

NetVista X Series

The NetVista X Series is designed for users who want high-performance features including an Intel Pentium 4 processor in a cool, space-saving, no compromise modular design available with enhanced manageability and security features.

Choose IBM today | Go to **ibm.com** or call 1 888 SHOP IBM to buy direct, locate an IBM reseller or for more information.

NEW!

IBM T560 Flat Panel Monitor

6656HG2

Introducing the T560, the new flat panel monitor that literally bends over backwards for you. Its revolutionary design offers a full range of motion with multiple adjustments for viewing comfort. The T560 adjusts to the way you work. Its elegant design allows it to lift horizontally and tilt backwards as far as 145 degrees.

NEW!

IBM P77 19" CRT Monitor (17.9" VIS)

6639T3N

The IBM P77 is well-matched for environments that value high-end text and image quality. P series monitors boast advanced features including Trinitron® fine-pitch aperture grill technology for outstanding picture quality. The latest FD Trinitron tube technology provides truly accurate images across the screen.

NEW!

IBM DVD-RAM/DVD-R Drive

22P6959

The new IBM DVD-RAM/DVD-R Drive provides rewritable DVD technology suitable for archiving video data. Allows for video editing and authoring software, simple backup and storage of up to 9.4GB per DVD-RAM disc. Also supports playback of MPEG-2 video and DVD movies.

IBM Memory - 512MB PC133 NP SDRAM UDIMM

10K0061

Adding memory is a cost-effective way to improve your desktop's performance. Attractively priced memory from IBM can help you get more out of demanding applications. Available in a variety of size configurations, including 512MB, 256MB, 128MB and 64MB.

IBM Wireless Keyboard and Mouse Kit

22P5170

The Wireless Keyboard and Mouse Kit helps eliminate extra cables from the desktop to give you more freedom. The 105-key Stealth black keyboard has 16 color-coded Rapid Access™ keys, six of which can be customized. The ScrollPoint® three button mouse allows for scrolling in all directions.

IBM 8x/4x/32x/8x Max CD-RW/DVD-ROM combination drive¹¹

10K3790

Take your desktop computer to the next level with this versatile optical drive. This revolutionary device gives you the ability to enjoy CD and DVD titles, and gives you the ability to record files to CD for portable backup all in a single bay. Expand your possibilities.

Options by IBM offers a wide range of accessories and upgrades designed to work with your NetVista desktop. For a complete list of options and compatibility information, visit ibm.com/options (U.S.) or ibm.com/pc/ca/accessories (Canada).

IBM T540 Flat Panel Display

6656HG2

The IBM T540 monitor offers the stunning performance of a TFT-LCD flat panel display at a surprisingly affordable price. The T540 has a razor sharp 15" viewable area that is just slightly less than a 17" CRT monitor. T series monitors deliver large viewable image sizes and consistent picture quality in a thin, lightweight package that occupies only about 1/6 the depth of regular monitors.

NEW!

IBM Uninterruptible Power Supplies

33L3478

Protecting your system also includes protecting your valuable data. An IBM UPS 675 USB is ready for events such as power surges from lightning strikes and helps protect multiple devices and gracefully shuts down computers in the event of power trouble.

NEW!

IBM Wireless connectivity

22P6901

Stay connected without the wires. Replace your Ethernet connection with a Wi-Fi certified IBM High Rate Wireless LAN PCI Adapter in conjunction with an IBM High Rate Wireless LAN Gateway or Access Point (not pictured). The perfect solution for reaching hard to network areas and helping eliminate cables.

NEW!

IBM 32MB USB Memory Key

22P5296

The ultimate in portability. This innovative device is a quick and easy way to transport files up to 32MB. Just plug the key into any available USB port and go. Plug and play. Very cool.

Award-winning service and support

Global IBM service and support

- One-click access to online service and support for your particular system through Access IBM⁶.
- Staff at HelpCenters quickly help you get the answers you need, 24 hours per day, 7 days a week⁵.
- Register for proactive e-mails from the IBM technical support staff to keep up-to-date on the latest updates and information about your system¹². Visit ibm.com/support for more information.

Warranty Service upgrades¹³

Up to three years onsite labor (now available anywhere in the continental US) service coverage from the date of your NetVista purchase (including warranty period)*. Visit ibm.com/pc/services for applicable terms and conditions or call your authorized reseller for additional information.

Manageability services

Easier long-term deployments

IBM NetVista desktops offer workhorse and global models for stable and easier long-term deployments (select models). Visit ibm.com/pc/workhorse for more information.

Installation Services

Get your new systems up and running with ServicePac[®] for Installation Plus Data Migration. Basic and enhanced services let you pick the level of service you need. Both offer data migration to get your new systems functioning like your old systems quickly³. Visit ibm.com/services/its/us/ss-spinstl.html for more information.

Data Migration Kits

Easily move the data from your old system to your new system with an IBM Data Migration Kit. These kits include the hardware and software you need to transfer the data files and personal settings from your old computer³. Visit ibm.com/pc/services for more information.

*See page 10 for additional warranty information⁷.

- ¹ Not all form factors are available in all countries.
- ² As of August 10, 2001, IBM alone offers an embedded data-encrypting security subsystem on desktop systems.
- ³ These data migration solutions cannot be used for transfer of operating systems or applications.
- ⁴ Based on the TBR study surveying 385 multi-vendor end users and conducting a comprehensive on-site review of IBM quality initiatives.
- ⁵ Requires separate Internet access account.
- ⁶ Response times may vary. May exclude some holidays.
- ⁷ For information regarding IBM's Statement of Limited Warranty, call 1 800 772-2227 or contact your reseller. Copies available upon request.
- ⁸ Maximum memory varies depending on model, and may require replacement of standard memory with optional memory module.
- ⁹ Designed to be capable of receiving data at up to 56Kbps with a compatible phone line and server equipment, and transmitting data at up to 31.2 Kbps. Public networks currently limit maximum download speeds to about 53Kbps. Actual speeds vary and are often less than the maximum possible.
- ¹⁰ Drivers available via the Internet. HelpCenter supports only preloaded OS.
- ¹¹ Maximum speeds of the IBM CD-RW/DVD-ROM combination drive are given in the following order: CD Write/CD Re-write/CD Read/DVD Read.
- ¹² Profiling at ibm.com/support required.
- ¹³ These upgrades are available for machines used for business, professional or trade purposes rather than personal, family or household purposes. Subject to IBM ServicePac[®] Maintenance Service Agreement. The customer may be asked for certain diagnostic questions before a technician is sent.
