

BUG REPORTS

Bug reports are welcome. They can be filed through the online feedback form on our web site. They can also be e-mailed to KeyStrokes@niemconsult.com with "bug report" in the subject field. Please include as much information as possible about your computer, system software, the KeyStrokes version, and the problem. If you are working with Mac OS 8 or later you should e-mail a system profile made with the Apple System Profiler under the Apple Menu. Make sure that it shows all extensions and control panels.

As this software is relatively inexpensive we can only provide limited technical support, but we will do whatever is within our means.
