

- Cyclone II •

The shareware registration fee for Cyclone II is \$14.95. After we process your registration, we will send you a registration code that can be used to remove the shareware notices and personalize your copy of the program. You will be entitled to free technical support and free updates for as long as you own the game.

- Cyclone 1.x Upgrade •

Registered users of the original Cyclone (up to version 1.2.1) may upgrade to Cyclone II for only \$4.95. The shareware fee for the first Cyclone was only \$10, so with this \$4.95 upgrade, you will be paying a total of \$14.95 to own Cyclone II. Your old serial number will not work with Cyclone II, so to remove the shareware notices and personalize your copy of the program, you must register Cyclone II using this upgrade payment option.

- Cyclone II Disk •

We will send you a disk containing the latest version of Cyclone II for only \$4.95. Sorry, this disk is not included with the normal registration fee. Please let us know if you need double-density floppies (only owners of the original Mac II should need these). Don't forget to add \$4.00 for shipping and handling outside the United States (except Canada and Mexico).
