What can you say about Bungie? They hired away the former Apple Games Evangelist Eric Klein then had the nerve of stealing the former Editor-in-Chief of IMG, Tuncer Deniz, from us. What's going on with these guys? We decided to take a closer look. We sent a camera to Bungie and asked them to take us on a tour of Bungie and to find out what they're working on. We've heard rumors that they are working on the next "big game" and that is supposedly not Marathon 3.
