ginore those doom and gloom reports about the Mac going to the dogs, lin fact, the dogs have come to the Mac.

Developed by ProMaglic and distributed by Virginn Dogu is nott the first virtual pett to scamper around the Mac screen, but it may be the most ambitious attempt to providd you with your Macis best friend yeto Available from rotail outlets and ffom PFoMagicD Wheb site, Doglz makes use of high quality animation to endear your pet to youn and its screen saver component will offer some protection against would be prowlers

## Kennel Ration

Doglt offers tive different breeds from which to choose, You can play with all of them in the play arean, clicking on one of the five doghouses causes a sprightly pup to emergen tongue and tail wagging enthusiostically The five pups are Bootz, Scrappy, Chichin chip and \owls, but you can rename them to whatever you like (after thevpre adopted. You can also take the aroup quizz to match you with vour preferred pooch, but most likely youpl iustt want to see your potential puppy in action. The play area gives you but one toy with which to playy a red ballo Throw the ball and the puppy fetches lito You can also call your doc by double clicking which wid rosult in your cursor snapping its finglers as you hear a whisthe Again
your dog wiol come rumning to its digital master
Affer picking a dogn you receive a code. ln the online version, this is done by caloing a number ลnd giving a creait cardo Aafter naming your dogn you can play with him by doulblecciicking the Doglz application. Here vour pup will scamper (uround in a resizea|ble windowo Youpl also have access to some now toys oo a sneaker that your dog will love to wrestle with ffood and water dishes to revive him ofter a rigorous play sessionn a spray water bottie he wonit like very much @nd three doglgie treats.

## Thicks and Treats

The treats enable you to teach your dogis tricks, Different dogis do different tricks, but as a whole, theypre pretty talented performers, They can stand on one footn do somersaults, backifips, and even stand on their heads, As with training a real dog consistent feedloack is key to getting them to respond reliably Eventually youpll be able to train your dog to do a different trick depending on which treat you presenti

These dogs work for their keep, toor The progiram comes with a ${ }^{a 0}$ Guard Dogzz mode that acts as a modestly secure screen saver ln this modlen your dog will march arownd the screen entertaining any passersby Showld someone try to gain entry to your screen, however a password prompt will appear and your dog will Start barking This is sure to scare off any poteoftial intrudor as well as any Degitimate oficcemates.

## Macis best fridend

In creating thousands of animotion frames, ProMagiic s talented animotors heve Obviously spent a lot of time studying dogss As long as you have an ousobased Mac or better these dollghtful digital puppies, with their huge drooping eyes react as you might expect them to when you pet them, call them, feed them, spray themo and even lginore them (after looking expectantly for a long time they glradually fall asleepon

One offthe best toys in the palette is the old sneaker a dog wivl beg to have it and even wrestle with your cursor for control. Teaching dogs tricks briliiantly ollows the value of playing with Dogz to extend long after an adopition

Some of Dogzi features, however belong in the doglhouse, One is the painting feature which allows you to color parts of your dog bizarre colors, This feattre seemed to come out of left feldo Another is the ability to take pictures off your dog for uploading to the company ${ }^{2}$ Web site There ${ }^{0}$ just so many poses a dog can assume.

These idiosyincrasies asiden Dogy is the most entertaining Mac quadrupoed to (ppear since The Talking Moose, Playing catch with your fourrlegged friend makes an excellent diversion ffom writing reports and annihilating enemy spacecraft

And while we fownd Dogut to be very stable software, always be wary of conflicts. After allo we ${ }^{0}$ d hate to see your dog eat your homework

Pros

- Shanelessly cute
- Migh -aumaitiv anirnation
- Security noode
o Tricks
