

This is the final resting place of the Pharaoh. The tomb is filled with treasures, but none stands out as brightly as his own casket. A giant diamond sculpted into the center of the gold laid coffin acts as a prism with the light from your party. There are four chests at each of the four cardinal points and there are side chambers to the left and right of the body. Surrounding the casket is a magical aura and many stone statues, acting almost like guardians. Be careful, the Pharaoh was considered a living god and may still have a few tricks left to discourage thieves.
