Trivia Contest

This month marks the second installment of the first ever IMG Trivia Contest! Anyone with a subscription to IMG can play, and those that answer the questions correctly will likely be winners. Even those that don't answer correctly stand to win some great games, so hold onto your hats and look for the Trivia Contest chapter in this issue, or visit us on the World Wide Web at WWW.IMGMAGAZINE.COM.

Where is everybody?? There really are no strings attached for this contest, and there are many prizes still to be won! Even if you can't answer all of the questions we encourage you to participate.

The IMG Trivia Contest gives you to win some of the following great games from these hot companies:

LucasArts - Afterlife, Rebel Assault II and The Dig.

MacPlay - Descent II, Alone in the Dark Trilogy.

StarPlay - ShadowWraith, Alley 19, Souls in the System.

Reality Bytes - Havoc, Sensory Overload.

Bungie - Marathon, Marathon II, Marathon Infinity.

Pulse Entertainment - Bad Mojo.

Ambrosia Software - Barrack, Escape Velocity.

IMG - Subscriptions to IMG.

But that's not all! There will also be t-shirts and other gaming paraphernalia given away to

contest winners. In all there's almost 100 prizes to be won!

[Web Site Improvements](#)

IMG's Web site is soon to become a very important part of the structure of IMG. By the time this magazine is in your hands the new and improved site will be up and running with plenty of news, reviews, and the hottest new links to other cool Mac gaming sites. The web site will be updated several times/week and the look and feel will also be tweaked as time goes by.

Come by and visit us at www.imgmagazine.com.

[More Screenshots in IMG](#)

Many of our readers have commented that they would like to see more screen shots in the reviews. The reason that the amount of screen shots has fallen off is a function of the 16MB size limit that the folks at Apple have inadvertently imposed on DocMaker. In order to incorporate more screen shots we've decided to lower the resolution of these images to 256 colors. You will now notice a dramatic increase in the number of screen shots included in our reviews, and don't forget, there's always the slideshows if you are craving a closer look.

[MISSISSIPPI](#)

We'd like to apologize to the folks at Green Dragon Creations for erroneously reporting that Green Dragon was located in Missouri. They are, of course, located in Mississippi. Our apologies :-)

[GameBits](#)

Some of you will undoubtedly notice the absence of GameBits in this month's edition of IMG. Not to worry, GameBits is merely taking a one month hiatus and will return in full force for the November issue.
