

Cow Saver setup

Use this dialog box to change the settings for the "Cows" screen saver. The "Cows" screen saver features various magnificent bovines (and some poultry) streaking across your screen.

Choose one of the following buttons for information about the dialog box:

Frequency

Speed

Sound On

Clear

Registering

Password

Credits

Disclaimer

Frequency

▶ This value determines how frequently bitmaps show up on the screen. The scroll bar allows settings from "continuously" to "almost never."

Speed

▶ Selects how fast the cows travel across the screen. The scroll bar allows settings from "snail pace" to "warp speed."

Sound

▶ If this box is checked, and you have a sound driver installed. Each cow will delight you with her beautiful mating call.

Clear Screen

▶ If this box is checked, the screen will be "blanked out" or cleared to black before the first cow is shown. Leave the box unmarked to display cows on you desktop. Note that after a number of cows have streaked across, the screen will still be cleared. Otherwise, we would be defeating the purpose of the screen saver; avoiding phosphor burn-in.

Password Options

Use these options to use a password with the screen saver.

- ▶ Select the Password Protected check box to turn on password protection. When password protection is turned on, you cannot return to Windows from the screen saver until you type the password. When this check box is not selected the Set Password button is unavailable.
- ▶ To assign a password to the screen saver, choose the Set Password button, and then complete the Change Password dialog box.

Credits

- ▶ Cows was developed by J. Palmero, for Diversified Computer Services.

Registering

▶ "Cows the Screen Saver" may be distributed freely. If you enjoy, and are a regular user, please register your copy. Send your name, address, and \$10 to the address listed below.

**Diversified Computer Svcs.
P.O. Box 40285
Downey, CA 90239
U.S.A.
CompuServe ID #70574,737 for support.
GO SWREG ID #2809 for registration.**

- ▶ If you wish, you can now register through **CompuServe**, just type **GO SWREG**, id. #2809.
- ▶ Registered users are entitled to receive our next screen saver, which is currently under development.
- ▶ Help fight the high cost of quality software, your contribution will help future development. Thank-you.
