

THE **Mario64** THEME

By phr0zen@hotmail.com

GREETINGS TO YOU ALL!

11-21-97

Hopefully, you downloaded this because you love **MARIO** as much as me, and you're hoping that this is going to be a '**QUALITY**' Theme that you actually keep instead of deleting 4 minutes after you finish downloading it because it sucks (like 80% of ALL other THEMES). If so, you're in luck – **because this theme kicks KOOPA-ASS!**

After weeks of searching for a **MARIO** theme on the Internet, I found ONLY one. Although I don't recall the name of the individual who created it, I can say that it was only 'semi-decent.' I do give credit to a couple of the non-animated cursors to him/her whoever they are (so don't get mad that I used it here!) :)

'THE Mario 64 Theme' includes:

- ❓ original sound files from the **MARIO 64** game for all Windows95 events*
- ❓ All original icons cursors and animated cursors*
- ❓ A high quality wallpaper.**

** The wallpaper was quite the accomplishment because there are ZERO HIGH-QUALITY **MARIO** pictures on the internet. All I could find were Screenshots from TV. SO, I took a 'decent' Scan I found of **MARIO**, cut him out, and well... you'll see.

* I got a couple cursors from some guys Mario page. The Mario on Yoshi and the 'un-animated' square. Some of the sounds were found at some other Mario page. Sorry my 'credits' are so vague, but 'credits' isn't my priority here.

Startup Screens:

I also included some cool original logow.sys, logos.sys, and logo.sys files for those of you who know how to change your 'startup-shutdown' screens and are religious as I am about having them go along with your desktop theme.

Final Notes:

I hope you LOVE this theme. I tried to put off releasing it until everything was perfect, but if something's wrong with it, let me know at the email address below. Having grown up with **Mario** from **NES** to **N64**, I can say that I think **Mario** would be proud of this theme.

Send me an email if you like it!.. Enjoy!

(this email doesn't get checked DAILY, because it's my anonymous-email account, I don't want NINTENDO to come after me for making this theme. But if you email me at this address, I'll get back to you eventually.)

- artificial disclaimer – Mario is a trademark/copyright of NINTENDO [c]. Mario64 is a Nintendo64 game owned by NINTENDO. NINTENDO is a really great company who hopefully will enjoy this theme without their lawyers. Hopefully NINTENDO wont turn this into one of those "FOX-taking-all-the-X-files-homepages-off-the-Internet-things." Mario fans are harmless and just want to enjoy Mario on their PC desktop as well as on their console.
