PROGRAMS WITH REGISTRATION KEY

A program that uses our registration-key will be a normal sharewareversion as long as you don't enter a registration key. You can test the sharewareversion up to 30 days. This sharewareversion can be switched to a licensed version by entering the registration key.

So you don't need to purchase a complete software package with a disk and high p&p cause **you only need to buy the the registration key.**

Advantages:

- o If you order **by phone** and pay with **creditcard** you'll get the key **within one hour.**
- o If you **order online** you will receive the key **via e-mail within one day:** we accept creditcards and cyber-money!
- o If you order via CompuServe **SWREG** you will receive the key **via e-mail within one day.**
- o If there is a new version of the software you don't have to buy an update!. You simply download the new version from **<http://www.sharedirect.com>**. The new version is licensed with your old key.
- o You save money for **p&p** cause there is no need to use a disk.

How to input the registration key:

If you don't have installed the program yet please do this first. Now start the program and look for the function *Enter your registrationkey* included in menu *Help*. You also can use the registration-button included in the toolbar (look for a button with a key-symbol). A dialog will appear on screen. Here you input your full address and your personal key which you got from us. Now click OK and you sharewareversion will switch to licenced version.

The following programs make use of the registration key:

	<u>SH-CopyStar</u>	39 DM	US\$ 30	SWREG# 4030
	<u>SH-Barcode</u>	19 DM	US\$ 15	SWREG# 4032
	<u>SH-WINColorStar</u>	29 DM	US\$ 20	SWREG# 4031
	<u>Pogo's Dreams</u>	29 DM	US\$ 20	SWREG# 12524
	<u>Charly the clown</u>	29 DM	US\$ 20	SWREG# 8451

More will come.

Charly the Clown (Registration key)

(29,-- DM) US\$
20.00

SWREG ID#8451

Charly the clown flies with his little plane to the next circus. Suddenly the motor stops and charly had to land in the deep jungle. Charly had to run the rest of the way - could you help him not to come to late? Start a new frendship and many adventures with charly!

Charly the Clown is a new fantastic jump´n´run not only for childs

- * 30 amazing levels plus many bonusgames. Each level can be selected via password.
- * VGA (256 colors) with parallaxscrolling and rendered grafics.
- * wundervoll music und great effects (Soundblaster und Gravis Ultrasound support).
- * Keyboard and joystick are supported.

WinBlocker for Windows (German version available only)

(39,-- DM) US\$ 30.00

SWREG ID#8211

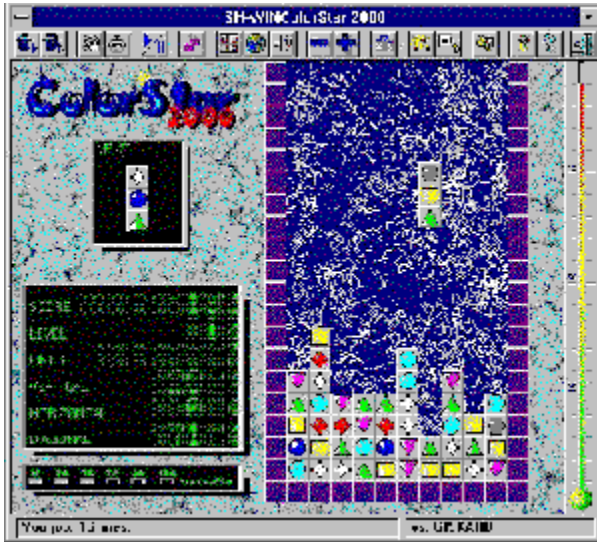

If you can't see Tetris any more this game will be a fantastic alternative! In this game there are falling radioactive figures down to earth. Now you have to fill these figures with blocks. Try to build rectangle because they will be destroyed then. It's your job to destroy all figures before they can reach the earth. You think that's easy? Try! Many different combinations of different figures will make your job as difficult as possible. So you need good reaction and capability to combine. There are 10 levels to be solved. Each level will not only be faster. It will be more complex and sophisticated. **There are 300 different formations of figures which will appear.** This is a guarantee against boredom. Including sounds and many special effects. WinBlocker is running under Windows 3.1 or higher, WinNT and Windows 95. You'll need a 386 processor (or better). It supports Windows WAV-sounds and displays up to 256 colors.

SH-WINColorStar for Windows (Registration key)

(29,-- DM) US\$ 20.00

SWREG ID#4031

The new challenge for all Tetris and Columns(TM) fans! SH-WinColorStar combine all the advantages of the classic games and more! There are more than 200 levels. Each level will present you a new problem you have to solve. Many new ideas are included in this game. You will be surprised of the great variety of this game. Many different combinations of different figures will make your job interesting. You need good reaction and capability to combine. There are **over 200 different levels**. This is a guarantee against boredom. Also there are many **arcade-game levels**. These levels have no problem to solve. You only have to play as long as you can to get the highscore.

SH-WINColorStar is running under Windows 3.1 or higher. It runs also under Windows 95 and Windows NT. You'll need a 386 processor (or better). It supports Windows WAV-sounds and displays up to 256 colors. A variable framerate guarantees high ergonomics and a very smooth scrolling. Networkgame under WfW or NT.

NEW: Network-game!

Play against a competitor - find out who the better player is! If you remove big combinations of lines your competitor will receive the removed lines.

Pogo's Dreams for Windows (Registration key)

(29,-- DM) US\$ 20.00

SWREG ID#12524

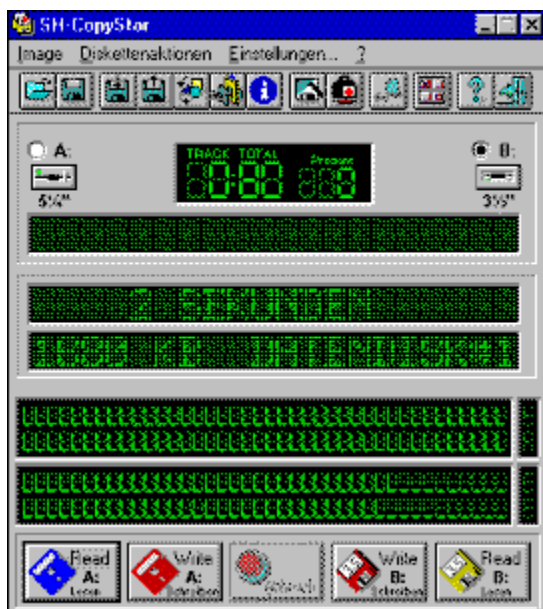

Pogo's Dreams is a fascinating variation of Tetris(tm) and Columns(tm). Pogo offers you 120 dreams (levels) which want to be completed by you. Will you solve all dreams? The best three scores for each level will be saved. Who's the best? **Don't wait! Play Pogo's Dreams!** *Pogo dreams under Windows, Windows 95 and Windows NT. You'll need a 386 processor or better. It supports Windows WAV-sounds and displays up to 256 colors.*

 SH-CopyStar for Windows (Registration key)

(39,-- DM) US\$
30.00

SWREG ID#4030

CopyStar is a **powerful diskcopy** und diskformatting utility for Windows. But it's not just another diskcopy program. See the following features... CopyStar support special formats **up to 1.722 MB** including the DMF Format. You can change between these formats. For example you can read a 360KB disk and **convert** it to 1440KB to rewrite to a high density disk. CopyStar tunes the disks. You can format disks with **sector sliding** to get optimal performance. You can defragment a disk and while reading CopyStar can skip unused tracks. CopyStar also contains functions for refreshing, comparing and verifying disks. You can **import and export** images from and to your harddisk as a normal directory. You can modify the bootroutines and add your own boottexts. Support for Virusscan software. Nonstop- copy, -format and quickformat: diskchange will be recognized automatically and more....

SH-Barcode for Windows (Registration key)

(19,-- DM) US\$ 15.00

SWREG ID#4032

SH-Barcode is a program to create different barcode types. (**EAN-13, EAN-8, UPC-A , CODE 39, Code 2/5 interleaved, Codabar, EAN-5 Add on, EAN-2 Add on and ISBN**). It's easy to use: SH-Barcode will be registered as **OLE-server** automatically. For applications not supporting OLE you also can use the clipboard to transfer the barcodes. SH-Barcode will automatically calculate the checksum and shows you the type of the barcode in the statusline. You can select a TrueType font for the characters inside the code, e.g. OCR-A. You also can print barcodes. WinWord Markos are included. Detailed help. Conversion of EAN-13 to ISBN and reverse plus a list to compare EAN and ISBN.

SH-Barcode is running under Windows 3.1 or higher, Windows 95 and Windows NT. SH-Barcode is available in german language only but also useable if you dont understand the german language.
